

EDUCATION

- **Warsaw University of Technology** Warsaw, Poland
• *B.Sc. Computer Science and Information Systems* 10/2024 – current

SKILLS

- **Languages:** C++, Python, C#, Ocaml, C.
- **Developer Tools:** VS Code, Visual Studio, Linux, Git & GitHub.
- **Frameworks & Libraries:** Streamlit, LangChain, Unity.

PROJECTS

- **AI Chat Bot:**
 - Architected a AI Chat Bot using Python, LangChain, and the OpenAI API to deliver context-aware, human-like responses.
 - Implemented a secure user authentication system with SQLite to persist chat history, enabling personalized and continuous user conversations.
 - Developed an interactive web interface with Streamlit, allowing for real-time interaction and demonstration of the AI's capabilities.
- **Personal Finance Tracker:**
 - Engineered a command-line application in OCaml to provide financial tracking, implementing core logic for transaction processing and balance aggregation.
- **Rhythm Video Game:**
 - Developed core gameplay mechanics, such as the note-scoring algorithm and player input handling, for a rhythm game using C# in the Unity engine.

COMPETITIVE PROGRAMMING

- **Contests:**
 - ICPC Polish Collegiate Programming Contest 2024 (42th out of 63)
 - ICPC Central Europe Regional Contest 2024 (60th out of 70)
- **Member of the [Competitive Programming Club](#)**
 - Participating in regular practice sessions.
